ELECTRONIC MEDIA POLICY

All Trinity College Colac Policies will be read and developed with reference to the Core Values, Vision and Mission of the College as well as any other relevant College policies.

RATIONALE:
At Trinity College Colac, the computer systems, including the e-mail, internet, intranet, facsimile, telephone (voice mail, SMS, MMS) and photocopying, are the school’s property even where access is gained from a personal or home computer. As new tools and resources become available, their use is also covered by this policy.

The provision of Information Communication Technology (ICT) systems by Trinity College Colac is to improve and enhance learning and teaching and conduct of the business and functions of the school. Using information technology, accessing information, and communicating electronically can be cost-effective, timely and efficient. It is essential that use of this valuable resource be managed to ensure that it is used in a purposeful, responsible and ethical manner that is consistent with Catholic values.

Our College allows access to and the use of e-mail, internet, intranet, facsimile, telephone (voice mail, SMS, MMS) and photocopying for legitimate work and education related purposes by the school community. This policy contains the school’s requirements in regard to the use of these systems.

SCRIPTURAL CONTEXT:
I may be able to speak the languages of humanity and even of angels but if I have no love my speech is no more than a noisy gong and a clanging bell. (Corinthians 1 13:1)

POLICY STATEMENT:
Trinity College Colac will ensure the use of electronic media, including but not limited to email, internet, intranet, facsimile, phone, social media (where approved) and photocopying is appropriate and lawful. The school will ensure that a cyber-safety program is in place to educate students and the school community.
