News from RMIT: RMIT offers vocational and higher education courses and has campuses at Bundoora, Melbourne and Brunswick.

Surveying: Meet Lucas Smith, After finishing school he worked as a surveyor's assistant. His experience of working in the industry inspired him to learn more by studying the Advanced Diploma of Surveying. He is now studying the Bachelor of Applied Science (Surveying) (Honours) and is on track to becoming a fully qualified surveyor and his own boss, [http://bit.ly/2gbMz0G](http://bit.ly/2gbMz0G)

Geomatic Technologies Women in Geospatial Science Scholarship: For females studying one of the following degrees – Bachelor of Science (Geospatial Science) (Honours) or Bachelor of Applied Science (Surveying) (Honours). Worth $8000 per year, [http://bit.ly/2gbQ7A0](http://bit.ly/2gbQ7A0)

Interested in Accounting and Financial Planning? RMIT’s new double degree is the only one in Victoria that combines financial planning and accounting. After graduating, you will be able to provide business, finance and wealth management advice, which will be an increasingly sought-after skill in the future. For information, go to [http://bit.ly/2gbKbqm](http://bit.ly/2gbKbqm)

Computer Science: RMIT Alumnus and Vice President Engineering at Google Hugh Williams talks about careers in computer science, and how RMIT’s programs give students the skills and experience needed to meet the challenges of this exciting and rapidly changing industry in the following video- [http://bit.ly/2fTSmVW](http://bit.ly/2fTSmVW)

New Food Science facilities in Bundoora: RMIT has just opened the doors to the new Food Research and Innovation Centre in Bundoora. Bachelor of Science (Food Technology and Nutrition) students now have the opportunity to undertake the second half of their course in these world-class facilities while gaining hands on experience and inventing the foods of the future. For information, go to [http://bit.ly/2fApocR](http://bit.ly/2fApocR)

Science news: Be inspired by the latest stories featured on RiAUS – Australia’s Science Channel. Some of the topics covered this week include:

- What happens to our electronics when we throw them away and why is this a major global issue?
- Humanity’s future in space and the limitations we need to overcome to make it a reality
- A Wi-Fi connection has been used to bridge a gap in a broken spinal cord and restore the ability to walk in paralysed monkeys

New Data Engineering major at University of Technology Sydney: Data engineers build the secure cyber-physical hardware and software infrastructure and systems that drives the collection, transmission, storage and analysis of data. This infrastructure, which ranges from the Internet of Things to cloud storage and computation, enables organisations to innovate and optimise their services using broadband networking and powerful computing. To learn about this new major, go to [http://bit.ly/2fP7Mu0](http://bit.ly/2fP7Mu0)

Not sure where a degree in science can take you? Australia National University has developed a short video, which gives an overview of science at the University - [http://science.anu.edu.au/bsc](http://science.anu.edu.au/bsc). They have also developed a science ‘career wheel’, which lists 6 major science areas, Bachelor degrees you can undertake at the University, and graduate careers for each area, [http://bit.ly/1WVdey6](http://bit.ly/1WVdey6)

Interested in physical education AND outdoor education? Federation University offer the only double degree of its kind in Victoria – Bachelor of Health and Physical Education/Bachelor of Outdoor and Environmental Education. Upon graduation, you will be able to teach Health, Physical Education and Outdoor Education at a secondary school, or work at an outdoor education centre, or with councils to improve the health of their communities, [http://bit.ly/1PUEOE](http://bit.ly/1PUEOE)
